

CHALI

screed-flush brush duct

Screed-flush brush duct with coverable brush and removable covers for horizontal cable installation. Consisting of pre-assembled height-adjustable lower and upper part. Designed for office traffic loads. Suitable for rooms with dry and damp-cleaned floor covers.

The levelling range can be adjusted by using levelling feet UBDSLFL (UBDSLFL: 92 - 160 mm; UBDSLFL 150: 158 - 230 mm; UBDSLFL 228 - 300 mm). The use of the UGM-SLF impact sound sleeve increases the levelling range by 3 mm. Please note the technical information.

The barrier-free system can be installed directly along the wall, at window fronts as well as in the middle of the room without a trip hazard.

material	Cover: Sheet steel, hot-dip galvanized
type of assembly	Mounting on raw concrete ceiling
application area	dry and damp-cleaned floor covers
norm	according to DIN EN 50085
permits	according to VDE / TÜV

Continuously hot galvanized (Sendzimir process) (DIN EN 10346)
