wall/handle bracket, light-duty

Wall/handle bracket, light-duty version made of folded sheet steel. Certified according to DIN EN 61537. For mounting on walls or hanging struts.

F_D/P : coefficient for calculation of the dowel load F_D with effective bracket load P respectively the sum of effective bracket loads. The load specifications are only valid with sufficient anchoring to the load-bearing substrate or with proper installation on hanging struts.

Continuously hot galvanized (Sendzimir process) (DIN EN 10346)
