wall/handle bracket, medium duty Maintenance of function, specified system

Wall/handle bracket, medium-heavy version, with welded-on back plate. Certified according to DIN EN 61537. For mounting on walls or hanging struts.

F_D/P : coefficient for calculation of the dowel load F_D with effective bracket load P respectively the sum of effective bracket loads. The load specifications are only valid with sufficient anchoring to the load-bearing substrate or with proper installation on hanging struts. The products can be used for fire protection. For technical parameters, see National Technical Test Certificates (abPs).

Hot-dip galvanized, according to BS 729 (DIN EN ISO 1461)
